Channel ISLANDS

October 24-26, 2022

The Northern Channel Islands of Anacapa, Santa Rosa, and Santa Cruz offer dramatic views of towering cliffs transforming into jagged peaks where sheep and goats are the only denizens. But below the surf are some of Southern California's best kelp forests! The kelp shelters many small crustaceans, shellfish, and scallops. Our guides will ferry us to the best dens for lobstering. For years now, Dolphin Scuba Center has taken divers on a three-days recreational trip to the Northern Channel Islands, and everyone always comes back with full bellies, wet scuba gear, and stories to tell. The knowledgeable Channel Islands Expeditions crew will provide you with many scuba diving opportunities to discover California's favorite "bugs" as well as a wide variety of underwater landscapes. There are untold opportunities for viewing and photographing a panorama of underwater vistas while searching for lobster. Unlike the coral reefs of tropical waters, the giant kelp forests of the Channel Islands add a third dimension! Your mini vacation will be hassle free, filled with delicious food, solid diving, and wonderful friends.

- Overnight Capacity - 22 people in 13 oversized bunks and 17 personal sized bunks.
- Bunks are dressed with pillows, blankets, and privacy curtains.
- Cruising Speed - 10knts
