Palau

$3,535.00

April 25 - May 2 2021

Palau is a year round destination with something for every season. While German Channel has many resident Manta Rays, during the mating season, December through March, guests may see as many as 20 – 30 rays! February and March offer large schools of Moorish Idols, Unicorn Fish and several species of Butterfly Fish. All year round, the Palau Aggressor II crew encounters massive bait balls of scad in and around Ulong and German Channel and on the reefs of Blue Corner and Siaes Corner.
