

# PALAU AGGRESSOR II

April 16 - 23, 2023

Palau is a year-round destination with something for every season. Water temperatures average 82°F and visibility is consistently over 100 feet! Enjoy four dives a day and night dives most evenings, conditions permitting. Experience award-winning dishes with each meal and unwind with nightly entertainment before and after the evening's night dive. Visit "Jellyfish Lake" - an enclosed lake system that has allowed the jellies there to evolve without stingers, giving you the chance to snorkel with living clouds.
